FROM (Name or Organisation) J P Van Dyke	ROOM NO.	DATE 11 Nov 66
	PHONE NO.	

John Vann, Asst. Reg. Dir.
Region III - USAID

17 October 1966

Prov. Rep. Long An

Hamlet Type Schools, 1965 - 1966

The following information has been furnished us this date by the office of education, Long An Province. The records available are kept on the basis of a school year and are broken down by classrooms.

For the school year 1964 - 1965, we report the following :

Number destroyed by VC	38	
Closed, lack of security	126	
Hurricane damaged	7	
Abandoned, too old	5	
<u>Gross loss of classrooms</u>	<u>176</u>	
Repaired, returned to use	1	
New classrooms built	60	
Net loss of classrooms		115

For the school year 1965 - 1966, we report the following :

Number destroyed by VC	41	
Closed, lack of security	139	
Hurricane damaged	8	
Abandoned, too old	7	
<u>Gross loss of classrooms</u>	<u>195</u>	
Repaired, returned to use	40	
New classrooms built	60	
Net loss of classrooms		95
Net loss classrooms two years		210

We invite your attention to the fact that during this period, only one of the USAID supported schools has been included in the above statistics. That school, at Long Hiep, was constructed in 1964, destroyed by hurricane in 1965, and reconstructed in 1965.

All 60 classrooms built in 1965 with USAID support are currently in use :

All 60 classrooms built in 1966 with USAID support are currently in use.

For the year 1967 this office has programmed as follows:

Classrooms:	
- Hamlet schools (RD)	70
- Refugee Schools (OR)	26
- Secondary Schools	36

The available of capable supervisory personnel and skilled labor, and the security situation, limits school construction in Long An Province.
